

ManxT25's	Specific Churches	Charities	Relevance for you
Habitats			
MT1: Grassland Habitat		MWT	With grass that hasn't been treated by chemicals or fertilisers - full of potential wildlife.
MT2: Hedgerow Habitat		MWT	Do you have an existing hedgerow? Or do you have a boundary that could have a hedgerow alongside it?
MT3: Freshwater Habitat		MWT	Is your church located near to an area of fresh water? Or do you have a naturally wet area that could become a haven for wildlife?
MT4: Woodland Habitat		MWT	Are you near a wooded area? Have space to plant trees?
MT5: Coastal Habitat		MWT	Is your church located near to our Island's beautiful coastline?
Groups			
MT6: Native Wildflowers		MWT	With grass that hasn't been treated by chemicals or fertilisers- Have you seen wildflowers in the past? Wish to encourage them?
MT7 Farmland and Garden birds		MWT	A GREAT category for both rural churches and urban churches. Massive potential with this target, especially if you have hedgerows and trees nearby....
MT8: Dragonflies and Damselflies		MWT	Or do you have a naturally wet area that could become a haven for wildlife? Could you create a pond? or are you located near to one that you can visit / adopt?
MT9: Butterflies		MWT	Is your church a sun trap? Butterflies like warm and sheltered places. Encourage with a grass & wildflower area, or raised beds & pots.
MT10: Bees		MWT IOM Beekeepers	Love a wide range of pollinator friendly plants. Areas of undisturbed grassland are great for ground nesting bees.
MT11: Bats		IOM Bat group	Have you seen bats near your church before? They can be found near areas of water, where there are trees or over rough grassland. Some bats are also well adapted to urban environments.
MT12: Grassland Fungi	St Peters Cregneash, Kirk Bradan, St. Sanctain Santon, St Catherines Port Erin, St George's Douglas, St Judes Lezayre	MWT IOM Fungus Group	Short grass! Reveals an ancient, colourful exciting world.
